## Awesome Day on the Laxa

Great day fishing with my guide Sverri. I've used IO in the past in May for a day on Laugarvatn and this time had a great day in running water chasing trout. Couldn't be better and highly recommend their services. They are knowledgeable, helpful, rapidly respond and offer both long-term and short-notice bookings. If you want to go fishing... After the fishing, the angler is taken back to their accommodation.

#### Fishing with Iceland Outfitters

We had a great couple of days fishing on the Varma river for sea trout and then cod fishing. The weather was still a bit cool and windy in early April, but the fishing was great. Our guides were very helpful and took us straight to the best spots to fish. I hope to fish additional areas in Iceland in the future with this Outfitter.
